Product Overview

The Self Contained Electronic Locking System incorporates an access control system, electronic lock, electrical override and simple external AA battery power supply into a single integrated unit. Available with digital keypad or RFID access control, the system installs into a single cutout on the Environ CR/ER Rack for quick and easy installation with no additional wiring required.

Product Dimensions: 20.1mm wide x 157.7mm long x 49.1mm deep.

Door cut out required: 25mm wide x 150mm long

Note: Electronic programming keys and cards need ordering separately.

Card reader protocol needs determining at time of order
