

TVD-PPB

Pendant ceiling bracket

Overview

The TVD-SNB is a swan neck bracket which allows you to mount a variety of domes onto a wall or onto a pole when using in combination with the TVD-M-PMA.

The bracket's rugged and waterproof design allow you to install it both indoor & outdoor.

Additionally to its mounting function, the bracket provides efficient cable management for the camera used.

Please consult the technical information section for more information on compatible products.

Standard Features

- Pendant ceiling bracket
- Pantone 428c to suit Interlogix domes
- Cable management
- Unified accessory for range of domes
- Rugged design
- Suitable for outdoor & indoor use
