- 110dB(A) output at 1 metre
- Enclosed electronics
- Durable 3mm polycarbonate construction
- Flashing comfort LED
- High visibility xenon strobe
- SAB/SCB modes of operation
- Weatherproof to IP55
- Easy to install

Overview

The Flashguard Minn-XW is a compact, fully-functional security sander with a unique, quick and easy to install, two part assembly.

The cover offers an area for screen printing not found elsewhere on a similar size sander.

The Minn-XW is rated to IP55 making it suitable for both indoor and outdoor applications.

The Minn-XW has a high visibility xenon strobe making it an excellent visual alarm. It also has a powerful piezo sander that provides up to 110dB(A).

- Fire
- Railway/Marine
- Security
- Hazardous Area
