

FOG BANDIT

The FASTEST system for protecting businesses against loss, damage and disruption from burglary

Burglars know that it takes time for the authorities to respond to an alarm activation. In just a few minutes they can steal your valuables, trash your premises and escape without trace. **BANDIT** provides the very best and **FASTEST** solution to this rapidly growing problem.

'What can't be seen, can't be stolen'

The state-of-the-art **BANDIT** is the fastest security fogging system of its kind in the world. When sensors detect an intruder the **BANDIT's** patented high-pressure system instantly delivers a dense, visually impenetrable plume of fog at the incredible rate of 28 cubic metres per second, projecting it 6 metres in the first 2 seconds alone! An average sized shop, office or showroom of 140 cubic metres would take just 5 seconds to fill!

The faster the system the quicker valuable stock, equipment and other contents can be obscured from sight, thus protecting them from the possibility of theft or damage, until the authorities arrive.

The benefits of installing a Bandit.....

- **The FASTEST way to help protect your assets from theft**
- **Helps deter burglaries from the outset**
- **Protects against the possibility of internal damage to property**
- **Helps keep insurance loss claims to a minimum**
- **Deters intruders from further attempts**
- **Fog is completely harmless and safe to use in any environment**

The result.....

- **Considerable cost, time and effort is saved, disruption to business is reduced to a minimum and normal trading can be quickly resumed.**

Specification

- Ejection rate - 28 cubic metres of high-density fog per second
- Projects fog a distance of 6 metres in first 2 seconds alone!
- One unit protects up to 504 cu. mt. of room space
- Capable of multiple firings e.g. a room requiring a 5 second burst can be protected 10 times over from just one fluid cartridge
- May be installed independently or incorporated with an existing alarm system
- Extremely low maintenance
- Dimensions W270mm x H365mm x D255mm
- Complies with European CE and BS 7939 Standards

More and more business owners are equipping themselves with this kind of 'peace of mind' protection system. So while the alarm system calls for help, **BANDIT** actively protects their assets.

SPEED IS OF THE ESSENCE

This is an intruder's eye view of the first 5 seconds after attempting to enter a Golf Professional's shop measuring 6 metres x 15 metres with a 3 metre ceiling height. The Bandit is located in the rear corner 7.5 metres back from where this picture was taken!
