

500 series of Control Panels

Welcome to the Gardtec 500 Series, made to make your life simple and secure. Forget anything you may have heard about domestic security systems. Complicated, unreliable, prone to false alarms - these descriptions are confined to history.

The Gardtec 500 Series of control panels is technology at its finest. As reliable as it is good looking, and so simple a child could use it, but make no mistake with the 500 Series at the heart of your home or office security system, peace of mind is guaranteed.

Bristling with features the Gardtec 500 Series provides problem free security.

500 Control Panel

Gardtec 370 Features

Control Panel

The Gardtec 500 Series is the perfect combination of aesthetics, attractive keypad options and comprehensive features that will ensure your security requirements can be fulfilled well into the future.

Application

The Gardtec 500 Series with 7 programmable zones plus one dedicated from the RKP provides capacity more than sufficient for most domestic and small commercial installations. The compatibility with 3 different attractive keypad options as well as its communication capabilities also mean that more advanced requirements can be met upon installation or at any time in the future.

Aesthetics

The aesthetics of the Gardtec 500 Series are designed to blend in with almost all décor and surroundings and now with the compatibility with 3 additional attractive keypad designs make this the ideal security partner.

Ace Options

Gardtec ACE (Advanced Control Equipment) is compatible with all of the Gardtec control panel range. This allows for the simplest form of security system operation - the press of a button. This is achieved through an attractive keyfob and secure infra red transmission.

ACE utilises the highest form of security and with up to 14 keyfobs per system it's ideal for commercial and domestic premises.
