- Polycarbonate tested -40°F (-40°C) to 120°F (49°C)
- Covers backed by a lifetime guarantee against breakage in normal use

STI KEYPAD PROTECTOR

This tough clear polycarbonate cover helps to extend the life and reliability of digital keypads, access controls and security panels by protecting them from accidental or intentional damage and tampering. Suitable for flush mount applications, the cover can also be supplied with a choice of spacers to accommodate surface applications. The cover is also available in a smoke finish.

STI EQUIPMENT PROTECTORS

Formed from tough clear polycarbonate and stainless steel materials, these large covers help to protect a wide range of control panels and other equipment from vandalism, accidental damage or tampering. The horizontal cover can protect fire and security control panels and exterior fire system annunciators. The vertical cover can protect access control modules and card readers.

All of the covers come complete with installation fixings and gaskets, (gasket is optional with the STI 6550). The gaskets help to protect the device from dirt, dust and grime. For additional security the covers are lockable giving you the choice of a key or thumb lock (optional key lock or break seal on the STI 6550).
