

ScanProx

The new proximity reader that couldn't be simpler

Just plug-on and the job's done!

ScanProx is an ingeniously simple new concept in proximity readers from Cooper Security. It's a plug-on module that fits neatly into an upgraded Scantronic keypad turning it instantly into a combined keypad and proximity reader. ScanProx is compatible with the 9930EUR-50 and the 931EUR-50 keypads.

- 934EUR-50** ScanProx module with 1 tag
- 9930EUR-50** Hybrid range keypad - ScanProx compatible
- 931EUR-50** 8136UK-50 keypad - ScanProx compatible

COOPER Security

Scantronic
Leading the way in security

Fully ACPO compliant

One common module makes life much easier for you. It's easy to remember, easy to order and reduces the hassle of carrying different products in your van-stock. Yet at the same time with ScanProx, you have all the equipment you need to install a system to meet ACPO and DD243:2002 requirements to set and unset using a portable ACE.

Easy to install, easy to use

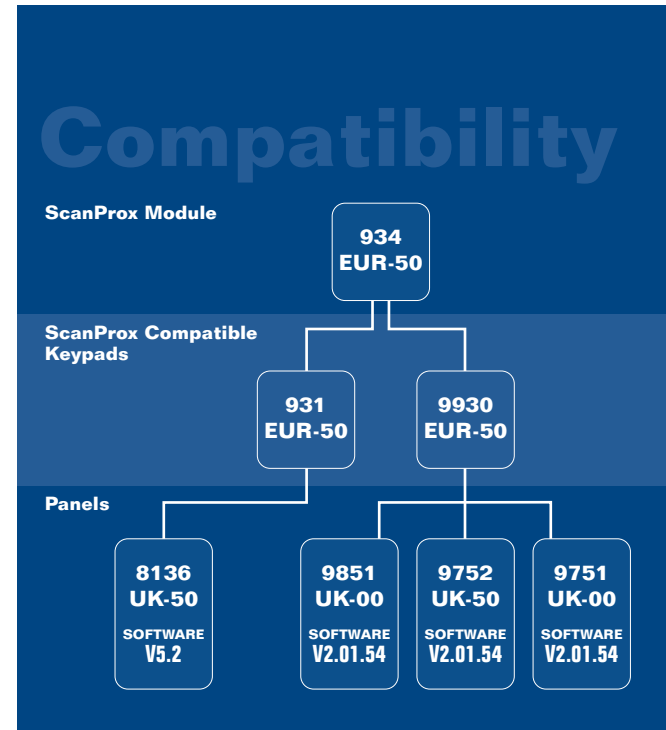

Compatibility with Scantronic keypads can be checked at a glance - the panels, keypads and proximity module boxes are all clearly marked with a yellow "ScanProx" sticker. You'll love ScanProx because it can be installed in minutes. Your customers will love it because it's so easy to use - no more PIN codes to remember, and a reduced risk of false alarms caused by keying in the wrong PIN code. Simply present the proximity tag to the keypad with the ScanProx module, to set, unset or access the menu options. The discreet module sits inside the keypad with no need to add additional equipment on the wall.

931EUR-50 and 9930 EUR-50 remote keypads

- Updated 931 EUR-50 and 9930EUR-50 keypads to accommodate the 934EUR-50 plug-on proximity module
- Easy to use and install, with the same programming commands shown on an illuminated LCD display
- Now gives you the option to fit a 934EUR-50 proximity reader module if desired

934EUR-50 plug-on proximity reader module

- One module compatible with all Scantronic ACPO compliant products (see diagram)
- Simple to install, plugs on to the keypad pcb
- Once plugged on to the keypad, it allows user verification and identification in the panel event log

Put in your order for ScanProx today

The ScanProx module is now available from your local distributor. For details on your nearest stockist, or for further information, please contact Cooper Security Marketing Department on 01594 545444.
