

Powermax Control Panels

<i>Powermax Plus</i>	Product Part Numbers	Battery P/N 0-9912-L
	0-100459	0-100498
	0-100535	0-5466-8
	0-100605	

9.6v 2.2Aph
8 cell battery
pack

Other Comments:

<i>Pmax Complete</i>	Product Part Numbers	Battery P/N 103-301179
	0-100973/4/5	0-100976
	0-101418	

7.2v 1.3Aph
6 cell battery
pack

Other Comments: Will also accept 9.6v battery 0-9912-G. Battery option in define panel must be changed

<i>Powermax Pro</i>	Product Part Numbers	Battery P/N 0-9912-G
	0-100318	0-100319
	0-100953	0-101131
	0-100714	

9.6v 1.8Aph
8 cell battery
pack

Other Comments: Powermax Pro will accept up two battery packs

Lithium Batteries—You Need to Know, we design our circuits for specific batteries types. Using other versions may save money, or be available quickly, but could result in return visits even after just a few weeks of installation.

Don't take chances, for all products with lithium batteries use only the versions recommended by Visonic.
