

## coaxial video distributor and amplifier

The GCD02A is a single video input to two video output distributor with amplification.

### Features:

- 10dB gain
- Red LED – power on/power off
- For connection to video cameras, multiplexers, DVR's etc.
- Power supply(DC 12V) included

### Installation View

All transmission distances mentioned do not take into consideration the connection of image processing equipment (e.g. Quad, Multiplexer, DVR). The transmission range could be considerably reduced dependent upon the type of equipment being used.
