### LVE 35012M

Maintained 12 volt 50 watt emergency pack. Designed for use with internal EMCH50 transformer (Not included). We will fit the EMCH50 at our premises if required (Price of EMCH50 (£9.85) to be added to trade price) but can be used with internal or external transformer and can be wired as non maintained.

Length = 388m x Width = 190mm x Height = 82mm

NTP £188.90

### EML 3506FM NTP £135.00

The EML 3506FM (Maintained) is primarily designed to provide emergency lighting utilising 12v tungsten halogen lamps up to a maximum rated load of 50w. (Dimmable Electronic Transformer included)

Mains Voltage	230v 50hz
Charge Current	200mA
Charge Monitor	LED
Battery	6v (5 cell) 4AH High temperature Ni-Cd
Recharge	24H
Maintaining Transformer	50w Electronic 230v 50hz input 11.5v SELV output
Cut Out	60mmø
Emergency	20w Halogen Lamp-3hr 50w Halogen Lamp-1hr

### EML 35063HRFM NTP £245.00 AVAILABLE AUGUST 2005

The EML 35063HRFM (Maintained) is primarily designed to provide emergency lighting utilising 12v tungsten halogen lamps up to a maximum rated load of 50w. (Dimmable Electronic Transformer included) 50% Emergency output.

Mains Voltage	230v 50hz
Charge Current	500mA (after 24hr charge)
Charge Monitor	LED
Battery	6v (5 cells) 13AH High temperature Ni-Cd
Recharge	24H
Maintaining Transformer	50w Electronic 230v 50hz input 11.5v SELV output
Cut Out	60mmø
Emergency	50w Halogen lamp 3hr (50%)

### EML 35012FM NTP £299.00 AVAILABLE AUGUST 2005

The EML 35012FM (Maintained) is primarily designed to provide emergency lighting utilising 12v tungsten halogen lamps up to a maximum rated load of 50w. (Dimmable Electronic Transformer included) 100% Emergency output.

Mains Voltage	230v 50hz
Charge Current	650mA (after 24hr charge)
Charge Monitor	LED
Battery	12v (10 cells) 13AH High temperature Ni-Cd
Recharge	24H
Maintaining Transformer	50w Electronic 230v 50hz input 11.5v SELV output
Cut Out	60mmø
Emergency	50w Halogen lamp 3hr (100%)

## FLUORESCENT EMERGENCY PACKS

Three hour maintained emergency pack for use with compact fluorescent fitting.

- E118E** - 1x 18w NTP **£79.99**
- E218E** - 2x 18w (1x 18w maintained) NTP **£83.29**
- E126E** - 1x 26w NTP **£88.50**
- E226E** - 2x 26w (1x 26w maintained) NTP **£91.99**

Dimensions: H52mm x W148mm x L429mm

Three hour maintained high frequency emergency pack for use with compact fluorescent fitting

- E118HFE** - 1x 18w NTP **£124.45**
- E218HFE** - 2x 18w (1x 18w maintained) NTP **£135.90**
- E126HFE** - 1x 26w NTP **£135.90**
- E226HFE** - 2x 26w (1x 26w maintained) NTP **£147.50**

Dimensions: H52mm x W153mm x L370mm

## EMERGENCY TWINSPOTS

### EML TS401H

Non maintained emergency flood light unit for industrial applications.  
2 x 20w tungsten halogen twin spot. IP20. 1x 12v 7AH sealed lead acid battery.

**1 Hour Non Maintained.**  
NTP **£97.49**

### EML TS403H

Non maintained emergency flood light unit for industrial applications.  
2 x 20w tungsten halogen twin spot. IP20. 2x 12v 7AH sealed lead acid batteries.

**3 Hour Non Maintained.**  
NTP **£107.49**

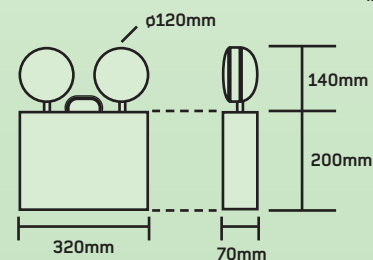

### EML TSL20

Replacement lamp for twinspace 20w  
NTP **£2.60**

THIS UNIT CAN ONLY BE HUNG WITH BATTERIES UPRIGHT, THEREFORE SHOULD YOU WANT TO HANG UPSIDE DOWN ELECTRICIAN NEEDS TO INVERT BATTERIES
