## Specifications

Electrical Characteristics	Input Voltage	12V ± 10%, above 1.2A	
	Battery	Lithium Polymer Battery (Inner Packaging)	
	Built-in Charger	Charging Time	More than 6 hrs
		Operational Time	More than 4 hrs
Image	Signal System	NTSC/PAL	
	Video Level	1 Vp-p, 140 IRE	
PTZ Operation Test	Protocol	Multiple	
	Transmission Speed	2400bps ~ 38400bps	
	Transmission Mode	RS-422, RS-485	
UTP Cable Test	Tests	Continuity/Crossed Cable, and Breaks or Short Circuits	
Multimeter	AC Voltage	Max. 400V	
	DC Voltage	Max. 400V	
	Resistance	Max. 40 M Ω	
	Continuity	Beeper is Activated When the Resistance is Below 20 Ω	
Size & Weight	W(88mm) X L (126mm) X D (40mm), Net 380g		

## Dimensions (mm)

# Rapport II

Multi Functional CCTV Tester

# Rapport II

Multifunctional CCTV Tester with 3.5" Color LCD monitor

Due to its popularity and attractiveness by many CCTV professionals, the Rapport II has been added to the Rapport series.

Rapport II is a multifunctional CCTV tester with a built-in 3.5" color LCD monitor. It is a simple and convenient Portable Service Monitor with Multimeter which provides monitoring of analytical data when installing CCTV systems. Professionals will value the test equipments ability to monitor Video Levels, analyze PTZ, UTP, RS-422/485, Electrical connections, and store video inputs for DVR playback. Integrated with a Lithium Polymer battery and compact flip-top design, the Rapport will ensure professional CCTV installations with efficiency and convenience.

Designed with portability and serious CCTV engineers in mind, the Rapport II will continuously support professionals and exceed expectations in the CCTV industry.

## Mode Select

### VIDEO TESTER

CCTV video field monitor with display Video signal level (IRE) Video signal generator to test video equipment.

### DIGITAL MULTIMETER

Test & measure Voltage, Resistance, and Continuity

### PTZ CONTROLLER

Control for PTZ cameras (Pan, Tilt, Zoom and Menu Setup). And also analyzing control protocol if camera control by external device.

### UTP CABLE TESTER

Test for Direct & Cross cable, Continuity, Discontinuity, and Short on UTP cable.

### DVR MODE (Rapport II-PRO)

MPEG4 Digital Video Recorder allows users to store video inputs on a SD card for future playback. (Max. 10minutes/file, 8files)

### VIEW INFORMATION

Setting information of Rapport II

### MAIN SETTING

Name or title change of operator / Sleeping mode time setting/ Beep sound / Brightness / Contrast / Audio volume setting

Rapport II is affordable convenient and easy to use. This product is designed to help INSTALLERS and ENGINEERS utilize their work effectively at a cost they can afford.

## Functions

### CCTV Field Monitor

The Rapport II features color CCTV field monitor.

It built-in 3.5 inch color TFT-LCD monitor, supports both PAL & NTSC video signal format. Display video signal level (IRE) is helpful to check the video quality. Brightness & Contrast control.

### Video signal generator

The Rapport II features Video signal generator.

It outputs Color bar, Red, Blue and Green screen allow technician to inspect video monitor or DVR. Support both PAL & NTSC video signal format.

### Multimeter

Rapport II features Digital multimeter.

It combines the most basic instrument include a voltmeter, ohmmeter and continuity tester.

### PTZ Controller

The Rapport II features full function of CCTV PTZ Controller.

It controls & programs variety of Speed & Slow Dome cameras. This will allow CCTV installer to test or program PTZ cameras at the actual camera job. It has multi protocol and programmable baud rate.

### PTZ Protocol Analyzer

The Rapport II features PTZ Protocol Analyzer.

It determines which protocol to control you PTZ cameras from PTZ Controller or DVR. This will guide CCTV installer to understand the protocol and find the fault device easily.

### UTP Cable tester

Rapport II features UTP Cable Tester.

It specified to quickly test a wire's continuity miswiring and polarization in your network by using an attached remote terminator so you can easily test the cable whether before or after the cable is installed.

### Digital Video Recorder (Rapport II-PRO)

Rapport II features portable DVR function.

The Rapport II-PRO has a built-in MPEG4 Digital Video Recorder. It allows users to store video inputs on a SD card for future playback. This ensures proper CCTV installations.

## Applications
