

Secure Safe

for protection of cash, valuables and laptop

• £1,000 cash rating

Many users would like to securely protect a small amount of cash and valuables. Products such as the Secure Safe Professional S2 would simply exceed their security objectives. A perfect solution would be the Secure Safe. Ideal for the home and commercial environments, this popular cash safe blends together a wide range of key features. Examples of these include £1000 cash rating, electronic locking, removable shelf, fixing kit and a choice of three models. For further protection, the safe can be easily stored within a safe or cabinet. With all of these advantages packed into one small safe, you may find it hard to resist...

Models

- The Secure Safe is available in one size to hold cash and valuables
- Our wall safe version is an alternative if you prefer to build your safe into the wall
- For optimal protection of your laptop, we recommend the laptop size

Construction

- The safes are constructed with a 5 mm solid steel door and 2.5 mm steel body
- The bolt-work has two chrome plated bolts with a diameter of 20 mm

Locking

- The Secure Safe offers key or electronic locking
- The user-friendly electronic PIN-code lock can store your personal access code (3-8 digits)
- Override key supplied with electronic version

Additional features

- Fixing kit allows DIY securing of safe to floor and/or wall
- In addition all units come with a removable shelf as standard

Design

- The Secure Safe range will complement any user environment and are supplied in light grey powder coated finish
- The electronic keypad is in dark grey finish
