CS-T10-A

Wireless Water Leak Detector

Introduction

T10 is a easy to use Wireless Water Leak Detector, it use single design, battery power supply. It can be installed in any water leak place, when occur water leak issue will trigger T10 alert, send Notification to users immediately via mobile phone, reduce users' loss.

T10 should be used cooperating with Internet Alarm Hub (such as A1).

Key features

◇ High sensitivity water leak detection.
◇ High performance RF communication.
◇ Fashionable appearance, simple design, high reliability.
◇ Support battery power supply.
◇ Cooperating with Internet Alarm Hub (such as A1), support local addition and QR code addition.

Specification

Working Frequency	868MHz
Battery Type	CR123A
Battery Capacity	1400mAh
Power Voltage	3V
Battery Life	2 Years
Working Temperature	-10℃ ～+55℃
Working Humidity	0％～100％
Dimension	φ 103.4mm×31.4mm
Weight	97g
Ingress Protection Rating	IP 67

Dimension

φ 103.4mm

31.4mm
