

# BS 5839-1 & 5839-6 Grade A Fire Alarm Logbook

## Product Features

- British Standard compliant
- High quality, durable A4 logbook
- A logbook designed by fire alarm professionals to be used by fire alarm professionals and their clients

## Product Description

This logbook format is like no other designed to meet the requirements of BS 5839-1.

The issue of this logbook to the user is a simple and slick way to comply with the requirements of BS 5839-1 as this logbook provides documented guidance to the user in relation to:

- recommendations for investigation of a fire alarm or fault signal
- recommendations for the investigation of a false alarm
- routine weekly and monthly testing
- service and maintenance of the system in accordance with Section 6 of BS 5839-1
- avoidance of false alarms
- need to keep a clear space around all fire detectors and manual call points
- need to avoid contamination of detectors during contractors' activities
- ensuring that changes to the building do not affect the standard of protection
- other responsibilities as detailed within Section 7 of BS 5839-1

The logbook even has the facility for making record of modifications to the system, changes to system category, changes of premises management, service contractor and alarm receiving centre details
