

### Product Description

This polarized relay works on 12 VDC, and is a simple to fit module wherever a dry contact, voltage free switching is required or where there is a need for higher than usual currents and voltages to be switched. The polarized function enables it to be used in Intruder Alarm and similar systems where the polarity of the output to the bells, sounders etc. is reversed when in alarm.

Note: Polarity must be correct for the relay to activate.

### Specification

Supply Voltage:12 VDC

Coil Resistance:360 Ohms

Nominal Current:24 mA

Double Pole Relay rated at: 8 Amps at 30VDC

Dimensions:60mm (L)\*50mm (W)\*30mm (H)

### Interfaces:

P1: 12VDC Input/Loop Output.

P2/P3:Dry contact / voltage free switching Output

LED:Light up when relay is energized.
