

POE-INJ01S

Power over Ethernet Injector

Power over Ethernet mid span injectors offer an easy, fast and cost effective solution for powering PoE devices such as IP Network Cameras. Power and data are combined on a single cable eliminating the need for separate cables for data and power, reducing installation costs and time.

POE-INJ01S

Key Features

- Conforms to IEEE802.3af/at standard RJ-45
- Data input Interface RJ-45 10/100 Base-TX
- Output port power cable Included
