

SPECIFICATION SHEET

INTERNAL LED MICROWAVE SENSOR

The built in microwave sensor for Batten Fittings and Non-Corrosive Fittings.

Applications

- Commercial Kitchens
- Educational Providers
- Retail

Specification

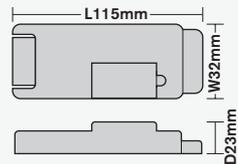

Guarantee: 3 Years

Working Temperature: -20°C - 60°C

Additional Information

- 0.5-3m/s Motion detection.
- 0.5mW Maximum transmission power.
- 0.5W Power consumption.
- 2-50Lux - Adjustable light control.
- 5s/ 30s/ 90s/ 3m/ 20m/ 30m Time settings.
- 5.8GHz ± 75 MHz ISM Wave band HF system.
- 10%/ 25%/ 50%/ 75%/ 100% Detection sensitivity.
- 150° (wall installation) 360° (ceiling installation) Detection angle.
- 400W Inductive, 800W resistive Maximum load.
- Controls the lighting ON/ OFF.
- Maximum 6m, recommended 3-4m mounting height.
- Maximum (D x H) 12m x 6m detection zone.

Dimensions

Code	Suitable Products	Dimensions (L x W x D mm)
WFLEDMS	LED Batten Fittings & Non-Corrosive Fittings	115 x 32 x 23
