xcel PIRs

COOPER Safety

Offers a common appearance throughout a hybrid installation
xcel series of detectors introduces a housing for wired and wireless standard and pet tolerant PIRs

Easily available batteries
xcelR and xcelRPT take two standard AA batteries available from any retailer

Fewer site visits to change batteries
Battery life increased to 40 months using standard AA batteries

Fit radio PIRs where you want to
Advanced design has led to 30% range improvement

Greater performance for improved security
Consistency of coverage considerably improved due to the new design of spherical lens, five layers of beams and dual element sensor
The xcelRPT responds twice as quickly as the previous radio PIRs whilst maintaining pet tolerance up to 25Kg

Carry one detector for all installations
Compatible with all current Scantronic and Menvier alarm panels with radio capability
